

Odyssey Financial Technologies signs a partnership with Incentage and launches Custodial Data Solution

Lausanne, Switzerland, 10 September 2008 -

Odyssey Financial Technologies, a global provider of private wealth and asset management solutions and services, is pleased to announce a new partnership with Incentage, a Swiss software provider of Straight Through Processing (STP) solutions for the financial industry. With this partnership, Odyssey launches its new Custodial Data Solution and includes it in its Portfolio Management solution, the Triple'A Plus™ platform.

Odyssey's Custodial Data Solution receives positions, transactions and cash data from Global custodian banks that provide electronic feeds. It duplicates this data in a common, scalable format and reinforces operational efficiency. Asset Managers can then consolidate account level information from different custodians into Odyssey Portfolio Management modules to generate value for their clients and boost their business.

"The solution powered by Incentage CapitalBus acts as a single access point interface between the Odyssey platform and the custodian banks. We've chosen Incentage because of its in-depth knowledge of the communication standards industry and its expertise, and because of the cost-effective extension its solution allows in a much shorter time-to-market," explains **Quentin Bérard**, Product Manager, Odyssey Financial Technologies.

Leading custodial banks are clearly interested in the solution since it increases their service level to asset management firms.

"Partnering with Odyssey will allow us to extend the reach of our CapitalBus solution. Odyssey's leadership position in Switzerland and beyond will enable us to approach new clients and markets with a high quality solution and reinforced services," says **Felix Huber**, CEO of Incentage.

It is foreseen that Odyssey and Incentage's partnership will be extended in the future to developing new STP solutions that will provide additional value to both clients.

About Incentage

INCENTAGE, a Swiss company based in Fehraltorf/Zurich, is a worldwide leader in EAI (Enterprise Application Integration) solutions for the financial services industry. The SWIFT Gold accredited, platform-independent INCENTAGE Middleware Suite (IMS) enables clients to participate in business communities and integrate all applications throughout the company without the need for programming. The INCENTAGE Process Cockpit (IPC) is a realtime business activity control and monitoring system that gives its users unprecedented control over processes, message flows, infrastructure components and operational risks. INCENTAGE has clients throughout the world and has a global network of partners. INCENTAGE is a SWIFT Regional Partner (formerly Business Partner).
