

Third Rome selects and goes live with Triple'A Plus™, Odyssey's Private Banking platform

Luxembourg, 14 October 2009 -

Odyssey Financial Technologies, a global provider of front- and middle-office software for the Private Banking, Private Wealth Management and Asset Management industries, is pleased to announce that Third Rome has gone into production with Triple'A Plus™ after a three-month implementation period.

Third Rome is a financial advisor specialized in providing asset and wealth management services for High Net Worth and Ultra High Net Worth Individuals of Russian origin. Third Rome was established in May 2009 by former managers of Renaissance Investment Management, another Odyssey client.

"We are delighted that Third Rome has selected us to equip its front- and middle-office teams with Triple'A Plus™. This shows how satisfied our clients are with our solutions and services, which is in keeping with our vision of always exceeding our clients' expectations through quality, innovation and advanced technology," comments **Michel Jongen**, Odyssey Financial Technologies' General Manager for Western Europe and CIS.

The implementation was carried out by Accenture who were able to count on their experience of successfully implementing Triple'A Plus™.

Third Rome's portfolio managers can now benefit from the advanced portfolio management, portfolio analysis, performance analysis and market data control functions of Triple'A Plus™. The system provides users with the necessary tools to manage the investments of their clients more efficiently, thus maximizing investment

performance. Triple'A Plus™ also automates the investment processes, enabling its users to focus on "exception management" and offer value-added client services and high quality reporting.

Maxim Yanpolsky, Third Rome's COO, says, "We already knew Odyssey well. We had an excellent experience with its Triple'A Plus™ platform and a very good relationship with the project teams. This of course helped us decide for Odyssey. We also needed a partner who was capable of delivering the solutions in a short time frame in order to fit in with our business launch. Odyssey and Accenture proved they were the right choice and we now look forward to further implementing Odyssey's solutions and further enhancing our client services."

Triple'A Plus™ is Odyssey's leading Private Banking Portfolio Management platform. Its unique configurability, comprehensive instrument coverage and flexible portfolio modelling and analysis capabilities empower users to automate the investment process, ensuring that the investment professional is focused on exception management, value-added client services and research, rather than being restricted by the need to deal with routine processes or administrative procedures.

About Third Rome

Third Rome is an asset and wealth management service provider. Third Rome provides a full spectrum of investment products including but not limited to: portfolio financing, leverage, structured investment products and others. It offers not only individual service but a high level of portfolio customization, management flexibility, constant feedback, joint decision making and others.

The brand name Third Rome used in this press release is an umbrella term that covers several independent companies, along with their respective partners and consultants.
